The Sports Wheelchair

...because sport is for **everybody**

The Sports Wheelchair...

At last, an affordable Sports Wheelchair.

Sport should be for everybody. Yet the cost of most sports wheelchairs has meant it's beyond the reach of many. Well not anymore, thanks to the Sports Wheelchair from Motivation.

Now nothing's holding you back.

A revolution in design, the Sports Wheelchair is high in quality yet low in cost, making starting a new sport easy and affordable. Not intended to rival expensive high-performance chairs, it's specifically designed for tennis and wheelchair basketball at grass-roots level.

The official seal of approval.

Designed according to the International Wheelchair Basketball Federation regulations and in conjunction with the International Tennis Federation, the Sports Wheelchair from Motivation is your perfect sporting partner.

A love of sport. A love of life.

Few things in life have as much to offer as sport. And if you've got a disability, the benefits sport brings are hard to overstate. The Sports Wheelchair enables you to reap all those benefits and in so doing, truly enhance your life.

...because sport is for everybody

Have fun. Stay fit.

Sport is one of those rare things in life that's both incredibly enjoyable and incredibly good for you. It can make you physically stronger by exercising your muscles, keep you in good shape and help you stay healthy.

If it feels good, do it.

Sporting exercise generates endorphins in your body that make you feel happy, so it's as good for your mind as it is for your body. Playing sport is also a great way to meet others, to boost your confidence and restore your independence.

Courtesy of Critical Tortoise

“One of the biggest barriers to wheelchair sports is the cost of the equipment. Many sports wheelchairs are designed for the elite market; this means that wheelchair users can be put off trying a new sport (because their day-to-day wheelchair isn't suitable) or they face a huge price-tag for an expensive piece of equipment before they've even decided if they like the game!”

Motivation's Sports Wheelchair enable people all over the world to be active which in turn gives them more opportunities to improve their quality of life. The chairs are a fraction of the cost of many of the sports chairs I've seen, whilst still maintaining a good quality for the demanding sports environment. I was impressed by these sports chairs and I think you will be too.”

Wheelchair Racer and winner of
11 Paralympic gold medals

The Sports Wheelchair

The low-cost, high-quality Sports Wheelchair.

There are two Sports Wheelchair models to choose from: the 'Spin Off', specially adapted for basketball and the 'Quick Hit', specifically for tennis.

Unlike competition wheelchairs, which are usually made of lightweight aluminium, the Motivation Sports Wheelchair is made from sturdy, far less costly steel.

Both are simple in design, easy to manoeuvre, comfortable and robust. Available in a range of sizes, including a children's version, each is fully adjustable.

Not for profit. Not out of your reach.

The Sports Wheelchair is a not-for-profit sports wheelchair, so any margin is ploughed straight back into Motivation. This, together with the fact that it was designed with price in mind from the start, means it's uniquely affordable.

Basketball 'Spin Off'

Ade Adepitan
Presenter & Wheelchair
Basketball Player

“ A sports wheelchair of this quality at such an affordable price would really have helped me when I was first starting out in sport. This is a great product that is intended to increase opportunities for people to try their hand at wheelchair sports. The potential benefits for sports clubs and federations are huge. ”

Tennis 'Quick Hit'

Jayant Mistry
Great Britain's number one
wheelchair tennis player

“ Once good quality, affordable sports wheelchairs were hard to come by, but not any more. Motivation's Sports Wheelchair is going to introduce a new generation of players to the game and support wheelchair tennis development internationally. For the first time, trying your hand at tennis needn't mean using an inappropriate chair or having to break the bank! ”

About Motivation

Motivation is an international disability and development charity committed to improving the lives of people with mobility disabilities.

We believe that mobility is an essential human right and one that enables people to take part in all aspects of life. That's why we've spent the last 20 years working to provide wheelchairs around the world.

By enabling people with mobility disabilities to participate fully in society we hope to significantly enhance their quality of life.

To achieve our aim, we work in partnership with local people and organisations to ensure they have the skills required to meet the needs of disabled people in their communities in the future.
